WHERE CHANGE TAKES ROOT

About Global Greengrants Fund

Global Greengrants Fund mobilizes resources for communities worldwide to protect our shared planet and work toward a more equitable world.

At Global Greengrants, we believe that solutions to environmental harm and social injustice come from people whose lives are most impacted. Every day, our global network of people on the frontlines and donors come together to support communities to protect their ways of life and our planet. Because when local people have a say in the health of their food, water, and environment, they are forces for change.

What Sets Us Apart

1

We Protect People and Planet

Our environment and the health of communities are deeply connected. We prioritize both.

2

We Expand the Boundaries of Philanthropy

We get financial support to people on the ground who other funders can't reach – where they need it, when they need it, and without bureaucratic red tape.

3

We Power Change from the Ground Up

Our network of experts invest in local leaders and movements for change.

4

We Uncover Possibilities and Potential

Our vast global network reaches deep into communities to find innovative, effective, out-of-the-box solutions.

5

We Are Leaders in the Philanthropic Field

We know we can't make change alone. We work within philanthropy to encourage others to support the power of grassroots movements.
